

FHT Series

Hot Water Pressure Washer

Standard Accessories

Intelligent Electric Control Panel
Industrial Motor
Vertical Diesel Boiler
Steel chassis
High Pressure Plunger Pump
Detergent Concentration Regulator
Pressure Regulating Valve
Pressure Switch
Knob Thermostat
FIDA Igniter
Suntech Oil pump
High Precision Filter
Stainless Steel Anti-Vibration Pressure Gauge
High Pressure Spray Gun
0°/15°/25°/40° Fan Shape Nozzle

Optional Accessories

Rotating Nozzle
Extended High Pressure Hose

Applications

- Remove road grime and oil from vehicles, including engine compartments.
- Sanitize and clean kitchen equipment and surfaces by removing residues and oils.
- Cleans oil and stubborn stains from factory floors and mechanical areas.
- Effective for cleaning heavy machinery and industrial floors where grease and oil accumulate.
- Cleans oil and stubborn stains from factory floors and mechanical areas

Key Features

- The max water temperature can reach 100 °C.
- Compact design and high mobility for ease of movement and space efficiency.
- The pressure switch intelligently activate or deactivate the motor in response to the operating pressure to improve safety, efficiency, and also prolong equipment lifespan with minimal energy consumption.

Control Panel

Nickel Plated Brass Pump (FAN)

Models and Specifications

Model	Voltage(Ph/V/Hz)	Flow Rate(L/min)	Pressure(Bar/Mpa/PSI)	Power(KW)	RPM	Weight(kg)	Dimension (L x W x H mm)
FHT 15/20	3/380/50	15	200/20/2900	5.5	1450	125	1160 x 670 x 850
FHT 15/25	3/380/50	15	200/20/2900	7.5	1450	125	1160 x 670 x 850
FHT 18/20	3/380/50	18	250/25/3625	7.5	1450	125	1160 x 670 x 850
